

NOTIFY® will automate your patient communications such as appointment reminders, outstanding balances, and practice announcements.

Eliminate inefficient communication by automating phone calls, text messages, emails, postcards and letters.

appointment reminder

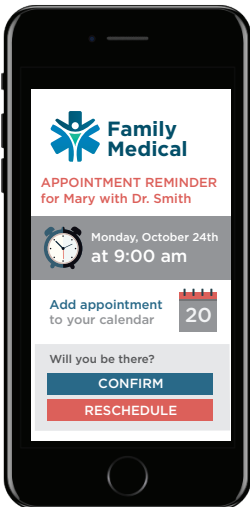

appointment confirmation

patient billing

practice announcements

NOTIFY® delivers the industry's most robust patient communication solution:

- Award-winning IntelliChart platform
- Complete access to discreet EHR/EPM data
- Doesn't require EHR/EPM reports
- Doesn't require manual file transfers from EHR/EPM
- Fully automated - no manual effort
- Market leading lowest fees

Our integration portfolio includes all industry leading EHR/EPM systems including: *Allscripts, Askesis, Cerner, CompuGroup Medical, CPSI (Healthland), Encite, GE Centricity, Greenway, NextGen, Netsmart, and SRS Health.*

Eliminate workflow inefficiencies by automating your patient communications with:

IVR calls

two-way texts

customized emails

full color postcards

full color letters

AUTOMATED FEATURE

PRACTICE BENEFIT

Appointment Reminders

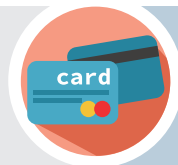

Eliminate no-shows by providing patients with convenient phone, text, email, and postcard reminders

Appointment Confirmation

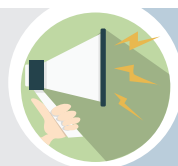

Patients can confirm or cancel appointments through IVR calls and text messages - they can even be connected to a designated resource to immediately reschedule

Patient Billing

Remind patients of their outstanding balances with a convenient call, text, or email - patients can even complete their payment

Practice Announcements

Announce the opening of a new location, new service or that the office will be closed due to weather with a call, text, or email
